

# VT Department of Entomology Spring 2024 Seminar Series

All seminars are scheduled for Thursdays 3:00 – 4:00pm, Reception at 4pm for external speakers

Date	Speaker	Affiliation	Host	Title / Topic
18 Jan	Daniel McGarvey	VCU	Sabat-Bonilla / Entrekin and Ento DEI Committee	Health, Inclusion, Insecta: an Unexpected Yet Timely Trifecta
25 Jan	Jay Evans	USDA-ARS	Tholl/Couvillon	Managing Pollinator Health
1 Feb	Catherine Febria	University of Windsor	Entrekin	TBD (headwater stream ecology)
8 Feb	Jason Rasgon	PSU	Booth	Vector genetics, but integrates Ecology, behavior, and genomics
15 Feb	Tappey Jones	Professor emeritus, Department of Chemistry, VMI	Anne Jones	Forty-eight Years in Arthropod Chemical Ecology
22 Feb	Ashley Jernigan	VT SPES	Kuhar Lab Member	The role of soil microarthropods in sustainable cropping systems
29 Feb	William Lamp	University of Maryland	Kuhar	Non-target effects of Bt corn debris on stream structure and function: The changing approach of environmental risk assessment
7 Mar	No Seminar – Spring Break			
14 Mar	No Seminar – ESA-EB			
21 Mar	Jessica Ware	AMNH, ESA	Alwood Society	
28 Mar	Lindsay Miles	Virginia Tech Entomology	Booth	Arthropod Evolution
4 April	Julián Hillyer	Vanderbilt University	Gross	TBD: Mosquito physiology / vector biology
11 April	Margarita López-Urbe	PSU	Couvillon / Walls / Johnson	Ecoevolutionary dynamics of crop-pollinator interactions
18 April	Thomas Chouvenc	UF IFAS	Wilson / Miller	Termite biology, evolution and control
25 April	Jonathan Auguste	VT Entomology	Kring	TBD
