

VT Department of Entomology Fall 2022 Seminar Series

All seminars are scheduled for Thursdays 3:00 – 4:00pm in 220 Price Hall. Zoom will be available for in-person seminars.

Date	Speaker	Affiliation	Host	Title
25 Aug	Sally Paulson	Virginia Tech Entomology	Department	Ethics and integrity workshop for new graduate students
1 Sep	Tim Kring	Virginia Tech Entomology	Department	Departmental Update-advisors introduce their students
8 Sep	Tim Kring	Virginia Tech Entomology	Department	Graduate student only welcome with ice cream social to follow
15 Sep	Kier Klepzig	The Jones Center at Ichauway, GA	Hunter Hodson/Sally Entrekin/ Scott Salom	How insect-microbial symbioses can shape organisms and communities.
22 Sep	Stefan Jaronski	USDA/VT Entomology	Sally Entrekin	Fungus vs grasshopper behavioral fever
29 Sep	Daniel C. Peck	Vestaron	Tom Kuhar	Insecticidal peptides: Primer on a new technology yielding novel tools for pest management
6 Oct	Anne Jones	Virginia Tech Biology	Sally Entrekin	Selection for increased crop yield shapes plant-insect interactions
13 Oct	Michelle Evans-White	University of Arkansas	Sally Entrekin	Ecology and distribution of Capniid winter stoneflies in Arkansas
20 Oct	Alonso Ramirez	North Carolina State	Sergio Sabat-Bonilla/Sally Entrekin	Hurricane impacts and stream ecosystems in Puerto Rico: the response of aquatic insect assemblages
27 Oct	Yifan Feng, Ivy Okello	Virginia Tech Entomology	Maria Sharakhova	Student proposal defense, 30-minutes each
3 Nov	Taylor Sydnor, John Schepis	Virginia Tech Entomology	Tom Kuhar	Student proposal defense, 30-minutes each
10 Nov	ESA Practice talks	Virginia Tech Entomology	Department	Student practice talks
17 Nov	ESA Mtg – No seminar			
24 Nov	Thanksgiving break			
1 Dec	Emily Reed	Virginia Tech Global Change Center	Sally Entrekin	Studying policy to inform biology: an invasive species case study
